# CHRISTOS SHEGANI

## FRONT END DEVELOPER

### Profile

I am an ambitious front end developer with technical expertise in Html Css Js React and git. I am looking for traineeship or full- time professional enrolment in a private or public business at a junior level. Available to relocate and start over immediately!

### Experience

Within the course of my studies, I have delivered GitHub related projects .

At the same time, I am self engaged in building up a portfolio of personal projects such as the examples below :

- Country-guide-app-with-API
- To-do-JS
- Black-Jack-with-JS
- Weather-React

To complete my studies I actively looking for an internship within the public or private sector to acquire professional experience and start over my professional career in the field of software applications development.
